

NOTICE OF SIGNIFICANT CHANGE TO THE MEMBER HANDBOOK

April 15, 2025

Starting May 15, 2025, the Los Angeles County Drug Medi-Cal Organized Delivery System Member Handbook will be updated through an addendum.

The change to this handbook is a result of adding *Traditional Health Care Practices* for eligible members and is expected to improve access to culturally responsive care.

To view the updated document (also available in different languages), visit the Substance Abuse Prevention and Control Patient Resource and Information webpage:
<https://publichealth.lacounty.gov/sapc/PatientPublic>.

To request a free printed copy, ask your provider and one will be given to you.

If you need help in another language, in braille or large print, or need auxiliary aids or services, these are available free of charge upon request by calling 1-888-742-7900 and press 7.
