

# TB Clearance Process for Parent and School Volunteers

Answer the Adult TB Risk Assessment questions with a licensed medical provider of your own or at your school. If you do not have a healthcare provider or insurance, go to the nearest Public Health- Nurse Walk In Clinic

If “no TB risk identified” – from the TB Risk Assessment questions, your school designee will fill out a TB Clearance Form

**Finished**

If you answered “yes” on any of the questions on the TB Risk Assessment – you will need a TB skin or blood test (IGRA)

If your TB skin or blood test is negative – your doctor can complete the TB Clearance Form

**Finished**

If your TB skin or blood test is positive you will need a chest x-ray . The doctor will complete the medical evaluation, may direct you for treatment or further testing if needed. Once cleared of having contagious TB disease the provider can complete the TB Clearance form.

Take the completed TB Clearance Form to your school nurse or other designated school official

**Finished**
